This office action is responsive to the Amendment with Remarks filed 20 November 2007. Claims 1-27 have been canceled. Claims 28-44, 50 and 51 are pending and presently under consideration.

Applicant's arguments with respect to claims, and the lack of a vertical alignment teaching in the prior art of record in the previous office action on the merits, have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 28-44, 50 and 51 are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshida et al. (Korean Patent No. 2001-0015316).

Yoshida et al. discloses a liquid crystal display comprising a liquid crystal material sealed between a pair of substrates; wherein the liquid crystal material comprises fluorine liquid crystals having negative dielectric constant anisotropy and an alignment assisting material for vertically aligning liquid crystal molecules; the alignment assisting material comprises a monofunctional monomer and a multifunctional monomer of acrylic resin, acrylate or methacrylate.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 20 November 2007 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
